

the consumer financial products or services industry, including regional trends, concerns, and other relevant information.” 12 U.S.C. 5494.

(a) The purpose of the Board is outlined in Section 1014(a) of the Dodd-Frank Act (<http://www.sec.gov/about/laws/wallstreetreform-cpa.pdf>), which states that the Board shall “advise and consult with the Bureau in the exercise of its functions under the Federal consumer financial laws” and “provide information on emerging practices in the consumer financial products or services industry, including regional trends, concerns, and other relevant information.” (b) To carry out the Board’s purpose, the scope of its activities shall include providing information, analysis, and recommendations to the Bureau. The Board will generally serve as a vehicle for market intelligence and expertise for the Bureau. Its objectives will include identifying and assessing the impact on consumers and other market participants of new, emerging, and changing products, practices, or services. (c) The Board will also be available to advise and consult with the Director and the Bureau on other matters related to the Bureau’s functions under the Dodd-Frank Act.

II. Agenda

The Consumer Advisory Board will discuss Arbitration, Trends and Themes in the marketplace, and Reaching Limited English Speaking Consumers.

Persons who need a reasonable accommodation to participate should contact CFPB_504Request@cfpb.gov, 202-435-9EE0, 1-855-233-0362, or 202-435-9742 (TTY) at least ten business days prior to the meeting or event to request assistance. The request must identify the date, time, location, and title of the meeting or event, the nature of the assistance requested, and contact information for the requester. CFPB will strive to provide, but cannot guarantee that accommodation will be provided for late requests.

Individuals who wish to attend the Consumer Advisory Board meeting must RSVP to cfpb_cabandcouncilsevents@cfpb.gov by noon, October 21, 2015. Members of the public must RSVP by the due date and must include “CAB” in the subject line of the RSVP.

III. Availability

The Board’s agenda will be made available to the public on October 7, 2015, via consumerfinance.gov. Individuals should express in their RSVP if they require a paper copy of the agenda.

A recording and transcript of this meeting will be available after the meeting on the CFPB’s Web site consumerfinance.gov.

Dated: October 2, 2015.

Christopher D’Angelo,
 Chief of Staff, Bureau of Consumer Financial Protection.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

One-Time Deauthorization of Water Resources Projects

AGENCY: Army Corps of Engineers, DoD.

ACTION: Notice of Interim Deauthorization List.

SUMMARY: The U.S. Army Corps of Engineers is publishing an Interim Deauthorization List of water resources development projects and separable elements that have been identified for deauthorization in accordance with section 6001(c) of the Water Resources Reform and Development Act of 2014, Public Law 113-121, 128 STAT. 1346-1347 (WRRDA 2014), and is soliciting comments from the public on the list for 90 calendar days. Comments should be provided to the contact named below by January 4, 2016.

FOR FURTHER INFORMATION CONTACT: Mr. Joseph W. Aldridge, Headquarters, U.S. Army Corps of Engineers, Attention: CECW-IP, Washington, DC 20314-1000. Tel. (202) 761-4130 or joseph.w.aldridge@usace.army.mil.

SUPPLEMENTARY INFORMATION: Interim Deauthorization List required by § 6001(c).

Section 6001(c) provides that the Secretary shall develop an Interim Deauthorization List that identifies each water resources development project, or separable element of a project, that meets the following criteria. Projects and separable elements eligible for deauthorization are those uncompleted construction projects and separable elements meeting all of the following criteria: (1) They were authorized for construction before November 8, 2007, or their most recent modification of the construction authorization predates November 8, 2007; (2) their construction has not been initiated, or, if construction has been initiated, there have been no obligations of Federal or non-federal funds for construction in the current fiscal year or any of the past 6 fiscal years; and, (3) there has been no

funding for a post-authorization study in the current fiscal year or any of the past 6 fiscal years. As specifically provided in section 6001(f)(1)(B) of WRRDA 2014, water resources development projects include environmental infrastructure assistance projects and programs of the U.S. Army Corps of Engineers. In accordance with section 103(f) of the Water Resources Development Act of 1986, separable elements is defined as “a portion of a project—

(1) which is physically separable from other portions of the project; and

(2) which—

(A) achieves hydrologic effects, or

(B) produces physical or economic benefits, which are separately identifiable from those produced by other portions of the project.”

The following elements of an authorized water resources development project also qualify as separable elements: An element for which there is an executed design agreement or project partnership agreement specific to that element; an element that has received funding specified for that element; an element that was authorized separately from or as an amendment to the authorization for the remainder of the water resources development project, that was separately identified in the authorization for the water resources development project, or for which a statute specifies an authorized cost, estimated cost, or amount authorized to be appropriated; an element that has been placed in service or for which the Government or the non-federal partner has assumed operation and maintenance; an element that has been deauthorized; or the remaining portion of the water resources development project apart from other separable elements. Following a 90-day public review period of the Interim Deauthorization List, the Assistant Secretary of the Army for Civil Works (ASA(CW)) will publish a Final Deauthorization List in the **Federal Register**. Section 6001(d)(2)(A) of WRRDA 2014 requires that the Secretary shall include on the Final Deauthorization List projects and separable elements of projects that have, in the aggregate, an estimated Federal cost to complete that is at least \$18 billion. The ASA(CW) has strived to meet the requirements of Section 6001, but was not able to identify projects that totaled \$18 billion.

The projects and elements on the Final Deauthorization List will be deauthorized automatically after 180 days following the date that the ASA(CW) submits the Final Deauthorization List to Congress, unless

the Congress passes a joint resolution disapproving the Final Deauthorization List or the non-Federal interest for the project or separable element of the project provides sufficient funds to complete the project or separable element. The amount shown as the

Federal Balance to complete is a working estimate generally based on the authorization and as such any non-Federal interests considering providing sufficient funds to complete a project or separable element should contact the appropriate District Commander to

discuss the process necessary to develop a final cost to complete a project or separable element.

The Interim Deauthorization List follows below in Table 1.

NOTES:
 (1) PROJECT/ELEMENT TYPE: PROJECT = WATER RESOURCES DEVELOPMENT PROJECT AUTHORIZED FOR CONSTRUCTION, INCLUDING AUTHORIZED ENVIRONMENTAL INFRASTRUCTURE ASSISTANCE PROGRAM IN ACCORDANCE WITH WRRDA 2014, SECTION 6001(f)(1)(B).
 (2) PROJECT/ELEMENT PHASE AND STATUS: NEVER FUNDED = NEVER FUNDED; CONSTRUCTION NOT INITIATED; CONSTRUCTION PAUSED = CONSTRUCTION FUNDED BUT PHYSICAL CONSTRUCTION PAUSED.
 (3) PER PUBLIC LAW 106-541, SEC. 507, NO CRITICAL RESTORATION PROJECT MAY BE INITIATED UNDER THIS SUBSECTION AFTER SEPTEMBER 30, 2005.

Authority: This notice is required by § 6001(c) of the Water Resources Reform and Development Act of 2014, Public Law 113–121, 128 STAT 1346–1347.

Dated: September 30, 2015.

Jo-Ellen Darcy,

Assistant Secretary of the Army (Civil Works).

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Intent To Prepare a Draft Feasibility Study and Environmental Impact Statement (EIS) for Navigational Improvements to San Juan Harbor in San Juan, Puerto Rico

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: The purpose of the feasibility study is to improve navigation in San Juan Harbor.

ADDRESSES: U.S. Army Corps of Engineers, Planning Division, Environmental Branch, P.O. Box 4970, Jacksonville, FL 32232–0019.

FOR FURTHER INFORMATION CONTACT: Mr. Paul DeMarco at (904) 232–1897 or email at paul.m.demarco@usace.army.mil.

SUPPLEMENTARY INFORMATION:

1. *Description of the Proposed Action.* Proposed navigational improvements to San Juan Harbor include deepening main channels up to minus 50 feet and widening main channels up to an additional 50 feet. Additional information is available on our Environmental Documents Web page at <http://www.saj.usace.army.mil/About/DivisionsOffices/Planning/EnvironmentalBranch/EnvironmentalDocuments.aspx#SJH>.

2. *Reasonable Alternatives.* Lesser increments of widening and deepening and other alternatives would also be evaluated. The dredged material is expected to be suitable for placement in the Ocean Dredged Material Disposal Site located a few miles from the harbor entrance. Some material may be suitable for placement in dredged holes and for other purposes. Other alternatives as identified during the scoping and plan formulation process will be considered.

3. *Scoping Process:*

a. Public and Agency Involvement. A scoping letter is being sent to agencies, commercial interests, and the public.

b. Issues to be Analyzed in Depth in the DEIS. Important issues expected include impacts to protected species,

sea grass, hardgrounds, socio-economic factors, and any other factors that might be determined during the scoping and plan formulation process.

c. Possible Assignments for Input into the EIS Among Lead and Potential Cooperating Agencies.

—U.S. Fish and Wildlife Service: Input concerning listed species, critical habitat, and other fish and wildlife resources.

—National Marine Fisheries Service: Input concerning listed species, critical habitat, and essential fish habitat.

—U.S. Environmental Protection Agency: Input concerning ocean disposal.

—The U.S. Army Corps of Engineers is the Lead agency and, together with the non-federal sponsor (Puerto Rico Ports Authority) will assume responsibility for all other aspects of the EIS.

d. Other Environmental Review and Consultation Requirements. The proposed action is subject to the requirements of the Endangered Species Act, Marine Mammal Protection Act, Essential Fish Habitat requirements, National Historic Preservation Act, numerous other laws and executive orders, and any other requirements that might be identified during the scoping and plan formulation process.

4. *Scoping Meeting.* A public scoping meeting will be held on November 5, 2015, at 9:00 a.m. in Room 101 of the Puerto Rico Convention Center, 100 Convention Boulevard, San Juan, Puerto Rico.

5. *Date the DEIS Made Available to the Public.* Depending on the issues, alternatives, investigations, and other requirements identified during the scoping and plan formulation process; the Draft EIS should be available by September 30, 2017.

Dated: September 29, 2015.

Eric P. Summa,

Chief, Environmental Branch.

DEPARTMENT OF EDUCATION

Announcement of Requirements and Registration for the Reach Higher Career App Challenge

AGENCY: Office of Career, Technical, and Adult Education, Department of Education.

ACTION: Notice; public challenge.

SUMMARY: The U.S. Department of Education (the Department) is

announcing the Reach Higher Career App Challenge (RHCAC or Challenge), a prize competition funded by the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV or Act). RHCAC calls upon potential entrants, who may include eligible educators, mobile application (app) developers, and other interested individuals to submit information concerning concepts for mobile apps, which may include a prototype, to improve access to information about career and technical education (CTE), help students, including students with disabilities and English Learners, navigate education and career paths, and increase the capacity of career counselors to serve students. The Challenge seeks solutions that: (1) Are focused on middle and high school students, (2) include integrated tools to assess user skills and interests, and (3) offer users accessible information on occupations, education options, credentials, and career-seeking skills through an individualized user experience.

DATES: We must receive your Challenge submission on or before December 7, 2015.

The timeframes for judging the submissions and selecting the finalists will be determined by the Department.

The Department will conduct at least one online information session during the open submission phase of the challenge. The date of the session will be determined and announced by the Department, posted on the Luminary Lightbox™ platform at www.reachhigherchallenge.com (Challenge Web page), and sent to entrants by email. The dates for finalist activities including the Virtual Accelerator phase, finalist mentorship, Innovator's Boot Camp, and Demonstration Day (all of these activities are described elsewhere in this notice) will be determined and announced by the Department.

The date for the final judging will be determined and announced by the Department following Demonstration Day.

The winner(s) will be announced on a date determined and announced by the Department.

ADDRESSES: Submit entries for the prize at www.reachhigherchallenge.com/.

FOR FURTHER INFORMATION CONTACT: Albert Palacios, U.S. Department of Education, 550 12th Street SW., Room 11086, Washington, DC 20202 or by email: albert.palacios@ed.gov. If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the FRS, toll free, at 1–800–877–8339.
